Summary

Field	Value
Topic	T09 - Security Testing (DAST / SAST)
Group	Nhóm 06 - KDBK
Members	23127075 - Lê Trung Kiên 23127185 - Mai Thị Kim Duyên 23127205 - Lâm Hữu Khánh 23127326 - Lê Mai Hoài Bảo

Project Metrics

Metric	Value	Note
Number of students working in the project	4	Input
Number of tasks	45	Calculated from student task counts
Number of task hours	137.5	Calculated from student task hours
Number of Git commits	139	Calculated from student Git commits
Max student percentage	25%	Calculated from Percent column
Project score	Entered by TA or estimated by students	

Instructions

Do not edit the grey cells. TAs will enter the score of all PAs in the project score and get the individual scores. Students can enter an estimated project score to see how percentages affects your scores.

Use columns Tasks - Percent, Task Hours - Percent, Git - Percent as references for column Percent.
